THE MONEY IS MISSING Charge Against a Japanese Falls.

Was Given Money to Deposit in a Bank.

Charge of Embezzlement Falls. Teachers Convention on Maui.

MAUI, May 29.—On Friday, the 27th, before Magistrate Copp at Makawao, Tsue, a Japanese camp boss of Pala plantation, was tried for embezzlement and was defended by J. L. Coke of Wailuku. The story of the prosecution was that a certain Japanese laborer named Turogo about a year ago gave to Tsue \$305 to be deposited in the Yokohama Specie Bank. The bank never received the money.

The prosecution failed to establish their case. The matter will be brought up again before the grand jury.

HOLY GHOST CELEBRATION.

On Sunday, the 22nd, the Feast of the Holy Ghost was celebrated at the Catholic church of Waiakoa, Kula, with at least one thousand people participating in the ceremony of the occasion. Wailuku, Punene, Kihel, Pala, Hamakua, in fact all the villages of central Maui were largely represented by their residents. Fathers Justin and Charles were the officiating priests.

TEACHERS' CONVENTION.

Monday, the 23rd, the first all day convention of district teachers was held at the Makawao schoolhouse. Miss M. E. Fleming presiding. There were twenty-six present, the following schools being represented: Huelo, Peahi, Hailu, Keakea, Punene, Kealahou, Maunaloa Seminary, Kaupakalua, Pala, Hamakua and Makawao.

The program of the day which was delightfully broken by a delicious lunch was as given below:

Simple Astronomy—D. D. Baldwin.
Simple Experiments in Physics—D. Kapohokimohewa.
The Physiological Effects of Alcohol and Nicotine—C. E. Copeland.
Fractions Taught by Ratio—F. W. Hardy.
A Reading Lesson from Thompson-Seton's "Wild Animals I Have Known"—S. R. Dowdle.
Knife-Work—A. S. Medeiros.

The meeting adjourned until the last of September.

NOTES.

On Monday, the 23rd, a school was

A FAIR EXCHANGE.

Large sums of money are no doubt realized from simple speculation, but the great fortunes are derived from legitimate and honest business—where the goods furnished are worth the price they bring. Certain famous business men have accumulated their millions wholly in this way. Prompt and faithful in every contract or engagement they enjoy the confidence of the public and command a class of trade that is refused to unstable or tricky competitors. In the long run it does not pay to cheat or deceive others. A humbug may be advertised with a noise like the blowing of a thousand trumpets, but it is soon detected and exposed. The manufacturers of WAMPOLE'S PREPARATION have always acted on very different principles. Before offering it to the public they first made sure of its merits. Then, and then only, did its name appear in print. People were assured of what it would do, and found the statement truthful. To-day they believe in it as we all believe in the word of a tried and trusted friend. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It aids digestion, drives impurities from the blood, and cures Anemia, Scrofula, Debility, Influenza, Throat and Lung Troubles, and Wasting Complaints. Dr. Louis W. Bishop says: "I take pleasure in saying I have found it a most efficient preparation, embodying all of the medicinal properties of a pure cod liver oil in a most palatable form." It is a scientific remedy and a food with a delicious taste and flavor. One bottle convinces. "You cannot be disappointed in it." Sold by chemists here and everywhere.

established at Kihel with Miss Rogers of Wailuku as teacher. There are at present about twenty-four free masons on Maui. Some time, within several weeks a meeting will be held in Wailuku to consider the formation of a lodge. Twenty-five or thirty years ago there was a lodge of free masons on Maui which built the present Wailuku schoolhouse for a lodge room.

The kua-handled trowel, used by Hon. H. P. Baldwin last Saturday in laying the corner-stone of the new Wailuku school building, after having a silver plate suitably inscribed fastened to the handle, will be presented to him as a souvenir of the occasion.

The new Wailuku schoolhouse is to have five large class rooms, an assembly hall, a lavatory, a principal's office and a store room. The rock used in the construction is called by the natives "ala" and is picked up on the road side, in the bed of the lao stream, and everywhere. Nicely dressed it presents a fine appearance.

District improvement associations might be beneficial as it is possible that they would provide neutral ground where the Republican and Home Ruler might meet and become better acquainted.

The May meeting of the Makawao Literary Society will be held this evening at the residence of Frank A. Alexander of Pala. A fine program has been arranged.

Mrs. W. D. Alexander of Honolulu has been the guest of Mr. and Mrs. H. P. Baldwin of Punene.

The league baseball game at Wells' Park, Wailuku, on the 22nd, resulted as follows: Kahului, 13; Wailuku, 12. A close game.

The steamer Alaskan arrived in Kahului yesterday.

Weather—Warm and dusty, customary trade winds.

NATURE MAN IS IN HILO

Standing or sitting on the street curbs, the motley figure of the "nachur man" attracted a large throng of spectators, and wherever he went, an enthusiastic and curious crowd followed after. Clad in a light undershirt, open and pulled down about the neck, and a pair of blue pantaloons rolled up above his knees, this advocate of living out of doors wandered about Hilo's streets all day Thursday, seeing whatever sights there were to be seen and delivering impromptu lectures on health at frequent intervals. E. W. Darling, who styles himself as the "nachur man," is a man of medium height, sturdy and brown skinned by exposure to tropical air and sun. With blue eyes and pleasant features, overtopped with a shock of yellow hair and wearing a flowing beard, Darling presents an interesting countenance.

He is well educated, speaking grammatically and intelligently on the subject nearest his heart, which is living close to nature. He is making a slight seeing tour of Hawaii, having made the complete circuit in three weeks. He uses a bicycle where he can, but finds the roads too hilly or rough for comfort, and has trudged barefoot most of the way pushing the wheel before him. Landing at Kukuluae May 5, he went through Waima, Kona, Kau, and came to Hilo via the Volcano House. He declares he did not find the temperature at the crater uncomfortable in his light raincoat, and only after considerable persuasion on Manager Biddood's part, did he consent to occupy a room in the hotel. He slept with doors and windows open, which he regarded as nearly in the open air possible under the circumstances. At Olua he delivered a lecture to a large crowd on "Good Health" Wednesday night, and repeated his remarks at the Hilo Hotel grounds last evening after the band concert. He leaves by the Kinai this morning.—Hilo Tribune.

AUSTRALIANS GOING TO ZION CITY.

SYDNEY (N. S. W.), May 15.—Notwithstanding the expose of John Alexander Dowie in Australia, a number of persons are selling their property and taking the proceeds to Zion City. Twenty-three men in comfortable circumstances are sailing from Adelaide for Chicago tomorrow. One hundred are booked to sail three weeks hence.

LONDON, May 15.—A throng of scientists vainly awaited Dowie yesterday. Dowie stopped off in Marseilles, going to Zurich, Switzerland, which is his headquarters for his continental campaign. Dowie occupied the most expensive suite on the steamship Mongolia and lived luxuriously.

The only tips they received were tracts. Dowie gave the officers of the ship lace handkerchiefs made in Zion City, advising them to invest their savings in the Zion City bank.

PUMPING PLANT AT AIEA PLANTATION

The Geo. E. Dow Pumping Engine Co. has constructed for the Honolulu Plantation Co. a pumping plant with a total capacity of 14,000,000 gallons each 24 hours, raised to an elevation of 450 feet. The water is taken from wells, and is intended to irrigate about 1200 acres of sugar cane. The increased acreage will add about 50 per cent to the present output of the company. It is expected to have the machinery ready by June 1st for the initial trial.—San Francisco Finance and Trade.

WAILUKU'S NEW JAIL Maui Expects to Get a New Court House.

Among the visitors to the laying of the corner stone at Wailuku last Saturday was one whose mission it was to plan for the immediate construction of another building.

Architect H. L. Kerr of Honolulu arrived by Friday night's Mauna Loa with authority from the Public Works Department to select a site for the jail and fire department in Wailuku. On Saturday afternoon a conference between the officials of Maui and Mr. Kerr was held, at which definite plans were practically agreed upon. The jail and fire department are to be in one building, for the construction of which \$8,000 is available. The building as planned is to be of concrete and practically fireproof. It will be two stories in height the lower story of which will be a basement in which will be located the cells of the prisoners.

The upper floor will be used for the offices of the sheriff, jailors and police department. The room for the hose carts will be at the front entrance of the lower floor, with a large door for egress. A covered passage is planned which will lead directly from the prisoners' cells to the dock of the new court room in the court house to be built. The present grounds will be raised three or four feet to the front of the jail, thus deepening the basement, so that only a short flight of front steps will be required to reach the upper floor. When Mr. Kerr submits his report, plans will at once be prepared and bids called for, so that within the next three months, the erection of the new jail and fire department will be begun. The new jail will stand back about 90 feet from the street and on the same side of the courthouse that it now stands, though probably a short distance south of the present jail building.

Work will not be begun on the courthouse until the legislature can meet and make any changes necessary in the law. It is now beginning to be understood that the sum of \$35,000 is entirely inadequate for the purpose of erecting a sufficiently large and roomy building for a court and county building and the suggestion has well been made that a portion of the appropriation for the Kahului Harbor, say \$40,000, might well and wisely be diverted to the purpose of erecting a proper county building which should require at least \$75,000. Now that the H. C. & S. Co. are planning for an elaborate breakwater and deep water pier at Kahului, the need for an additional harbor at our sea-port has ceased. As a county building is something needed by all the citizens of Maui it would be the right thing to apply thirty-five or forty thousand dollars of the wharf money to the erection of a county building, and devote the remaining ten or fifteen thousand dollars to the extension of the Lahaina wharf.—Maui News.

STARVE THEM OUT!

Why not starve the germs to death? Scott's Emulsion will do it.

The germs of consumption are an invading army numbering millions upon millions; they must all be fed or they will soon die of starvation. A lung a little below "par" in vitality is just to their liking.

Why not put new life into it? Scott's Emulsion feeds the lungs. It fills the blood with nourishing food for all the weak parts. Good food means life. Life means resistive force.

Germs cannot live on healthy tissue. Scott's Emulsion and good fresh air drive out the germs of consumption.

We'll send you a sample free upon request.

SCOTT & BOWNE, 409 Pearl Street, New York.

INVITATIONS!

Any lady employing domestic help who has failed to receive an invitation with our card and order sheet enclosed, offering to engage and send to her the best domestic help on the market, will confer a favor by calling our attention to the fact, and we will see that an invitation with an apology is sent by Messenger Service without delay.
